# elementary...

At Thrislington we offer products across four major sectors; commercial, leisure, education, and our new health range which shall be launched in September. All our products are designed and built with the specific challenges that each of these sectors offers so, unlike others, we offer unique tailored solutions.

But don't just take our word for it, we have been installing our products with great success around the globe for almost 50 years, all supported with our market leading warranty. Please give us a call to see how we can help you on your latest project on: +44 1244 520 677
